Research Papers

Evaluation of radon systems at Yeelirrie, Western Australia
B.C. Severne (Kalgoorlie, W.A., Australia) 1

A new approach to the estimation of analytical precision
M. Thompson and R.J. Howarth (London, Great Britain) 23

Precipitation of iron, manganese, zinc, and copper on clean, ceramic surfaces in a stream draining a polymetallic sulfide deposit
R.H. Carpenter and W.B. Hayes (Athens, Ga., U.S.A.). 31

Relationship between geological, geophysical and geochemical data obtained from blind lead-zinc mineralization at Keban, Turkey
M. Köksoy (Ankara, Turkey) 39

Increase in uranium concentration in streams draining Rocky Flats, Colorado
A.C. Delany (Boulder, Colo., U.S.A.) and R.L. Fleischer (Schenectady, N.Y., U.S.A.). 53

Stream sediment geochemical investigations in Arkansas – comparisons of manganese, zinc and lead-zinc districts with an unmineralized area
G.H. Wagner, R.H. Konig and K.F. Steele (Fayetteville, Ark., U.S.A.) 63

Secondary controls on mercury in soils of geothermal areas
R.W. Klusman and R.A. Landress (Golden, Colo., U.S.A.). 75

Rapid laboratory analysis by neutron activation: experience in bauxite exploration
G. de Weisse, U. Mannweiler and L. Rybach (Zürich, Switzerland) 93

Microgram metal contamination of water/nitric acid after four years in linear polyethylene containers
J.W. Marchant and B.C. Klopper (Rondebosch, South Africa) 103
